

TALKING POINT

## KP GROUP: DRIVING THE NEXT ERA OF SUSTAINABLE ENERGY GROWTH

**K**P Group, one of India's leading renewable energy and infrastructure conglomerates, is aiming to surpass 10 GW of renewable capacity by 2030. With an 8.5 GW portfolio in FY-26 and three listed companies — KP Green Energy, KP Energy, and KP Green Engineering — the group is building an integrated ecosystem spanning renewable energy, manufacturing, and infrastructure execution.

### Expansion Across India

In renewable energy, KP Group's growing footprint spans Gujarat, Rajasthan, Maharashtra, Madhya Pradesh, Odisha, Karnataka, and Andhra Pradesh, with collaborations including MAHAGENCO, Coal India, Adani Green Energy, SJVN, and Larsen & Toubro. In fabrication, the Group continues securing diverse orders across multiple states, from Goa and Ladakh to Telangana and Tamil Nadu.

### Growth Momentum

KP Group continues its strong growth momentum in FY26, reporting consolidated revenue of **₹5,498 crores**, up **61%**, alongside a **77% rise** in cash profit to **₹1,193 crores** and a **61% increase** in PAT to **₹826 crores**.

### New Initiatives & Strategic Ventures

- **Green Hydrogen Facility:** Commissioned a 1 MW green hydrogen plant at Matar, Bharuch, integrated with Asia's largest galvanising plant.
- **Future Segments:** Advancing into floating solar, BESS, green hydrogen, offshore wind, pumped storage, and energy trading.
- **Trading licenses:** KP Green Energy and KP Energy both secured inter-state and intra-state electricity trading licenses from CERC and GERC, enabling pan-India market expansion.
- **Global Partnerships:** Signed a US\$4 billion MoU in Botswana for up to 5 GW renewable projects, while strengthening ties in UAE, South Korea, and the US.

**"As India moves toward a greener and more sustainable future, KP Group remains committed to building sustainable infrastructure that contributes meaningfully to economic growth and energy transition,"**

– Dr. Faruk G. Patel, Founder and Chairman & Managing Director of KP Group.

## KP GROUP: DRIVING THE NEXT ERA OF SUSTAINABLE ENERGY GROWTH

### A Bold New Vision :

vision for the future — to surpass 10 GW of renewable capacity by 2030. KP Group's portfolio stands at 8.5 GW as of FY-26. With its three listed companies — KPI Green Energy, KP Energy, and KP Green Engineering — the group is building a holistic ecosystem that integrates renewable energy generation, advanced manufacturing, and infrastructure execution.

### Growth Momentum:

- **Financial Performance:** In FY26, KP Group reported consolidated revenue of ₹5,498 crores, reflecting 166% growth, alongside a cash profit of ₹1,193 crores (+1677) and PAT of ₹826 crores (+146%).
- **Operational Scale:** The group's renewable portfolio now exceeds 8.5 GW, spanning solar, wind, hybrid, and battery energy storage systems (BESS).
- **Installed Projects:** KP Group has already crossed 1+ GW in the IPP category, supported by a land bank of 12,247 acres and 2,200+ km of transmission infrastructure.

### Big Orders Secured:

Key wins included a ₹621 crore NTPC solar project, an ₹819 crore BSNL telecom infrastructure project, a 914 MW hybrid project from JK Paper, and 565 MW / 1130 MWh BESS projects.

### Expansion Across India:

In the renewable energy sector, KP Group's rapidly expanding footprint now extends across Gujarat, Rajasthan, Maharashtra, Madhya Pradesh, Odisha, Karnataka, and Andhra Pradesh, with prestigious collaborations involving MAHAGENCO, Coal India, Adani Green Energy, SVNI, and Larsen & Toubro. Simultaneously, in the fabrication sector, the Group continues to secure diverse orders from Gujarat, Maharashtra, Goa, Jammu & Kashmir, Ladakh, Uttarakhand, Himachal Pradesh, Telangana, Tamil Nadu, and Karnataka, further strengthening its position as a leading force in India's infrastructure and clean energy growth story.

### New Initiatives & Strategic Ventures:

- **Green Hydrogen Facility:** Commissioned a 1 MW green hydrogen plant at Hater, Bharuch, integrated with Asia's largest galvanizing plant.

"Our focus is on building strong execution capabilities alongside scale," says Dr. Faruk G. Patel, Founder and Chairman & Managing Director of KP Group. "By integrating renewable energy and advanced manufacturing, we are creating a platform for long-term growth while contributing meaningfully to India's and the world's green energy transition."

- **Future Segments:** Advancing into floating solar, offshore wind, pumped storage, and energy trading.
- **Trading licenses:** KPI Green Energy and KP Energy both secured inter-state and intra-state electricity trading licenses from CERC and CERC, enabling pan-India market expansion.
- **Global Partnerships:** Signed a US\$4 billion MOU in Botswana for up to 5 GW renewable projects, while strengthening ties in UAE, South Korea, and the US.

### Social Impact :

Beyond business, KP Group continues to create meaningful social impact through the KP Human Development Foundation, positively touching 125 million lives across healthcare, education, environment, and welfare initiatives. Key initiatives include building the world's first old age home for specially abled individuals and supporting 14,500+ students across India through scholarships and mentoring from primary education to civil services preparation. It is noteworthy that, considering the growing employment demand in the renewable energy sector, KP Group is also providing free education every year to 120 students under the Ujjwala Scholarship Program. In addition, under the Unnat Bharat Abhiyan initiative, the Group is providing training every year to 120 ITI students at SVNIT.

"As India moves toward a greener and more sustainable future, KP Group remains committed to building sustainable infrastructure that contributes meaningfully to economic growth and energy transition. In view of the recurring geopolitical challenges, there is an urgent need for the nation to reduce its dependence on other countries in the energy sector, and renewable energy makes this possible. In line with PM Modi's vision, we are moving aggressively forward and contributing towards the nation's sustainable growth," said Dr. Faruk G. Patel, Founder, Chairman & MD of KP Group.
